

Operational  
Intelligence  
REDEFINED.

## Operations, Emergency Preparedness & Rapid Response

- Instant, secure access to critical building systems, infrastructure and operational procedures
- Day-to-day procedures and operations information at a glance
- Consistent and effective building-specific training for all key building personnel
- React rapidly to building emergencies with tools that provide critical information
- A key differentiator and value-creation tool
- First Responder Advantage™ tools provide essential response information to emergency personnel
- Always up-to-date with BSSupdate™
- Multiple levels of authentication and encryption ensure information integrity and access control

**BSS Archangel™** is the only solution of its kind that provides key personnel, first responders and building management with the critical information they need, *when* they need it.

Archangel's innovative VisibleBuilding™ technology provides unprecedented access to critical building information. Building-specific training ensures consistent and effective training for all key building personnel. Instant access to floor plans and detailed building systems enables rapid response to mitigate damage. First responder tools and integration with existing building systems provide building intelligence that maintains and builds your asset's value.
